

About our meetings

Most user meetings are held annually for each office and are specific to each office. Training meetings include:

- * Treasurer's - year end tax receipting and real estate year end.
- * Recorder's - vital statistics and instrument indexing.
- * Auditor's Real Estate - tax process and maintenance.
- * Engineer's Accounting - payroll, equipment and road costing, parts and material inventory, and signs.
- * Auditor's Accounting - year end, fiscal year end, and cash balancing processes.
- * Assessor's - real estate maintenance and year end.
- * Auditor's Accrual/Budget - preparing the accrual forms for the Department of Management's annual financial package, and preparing budgets, and 1099s.
- * Auditor's Accounting - daily processing, maintenance, and month end processes.
- * Payroll - payroll processing, ACH, quarterly reporting, and W2s.

Solutions, Inc also periodically holds additional meetings beyond the regular software meetings.

* Networking and IBM i System Operations are geared for the hardware and system administration personnel.

* IBM i Query class designed to assist users in setting up and running queries specific to their needs and requirements.
